## **AGC of Michigan Recognizes Outstanding Safety Performance**

*Contractors recognized as industry leaders in employee, workplace safety*

**PLYMOUTH, Mich.** — The Associated General Contractors (AGC) of Michigan presented the 2020 Michigan Outstanding Safety Performance Awards during its Annual Meeting today in Plymouth. Fifty commercial construction organizations were recognized for their continued commitment to employee and workplace safety.

“AGC of Michigan is committed to empowering our members with the most comprehensive and up-to-date safety education and training programs,” said Damian P. Hill, president of AGC of Michigan. “We are proud to recognize members who go above and beyond to make construction sites in Michigan safer for their employees, and thank them for their leadership in making safety a priority.”

The Outstanding Safety Performance Awards are based on lost work injury rates with zero being the best. Companies are grouped into divisions based on work hours generated during the award calendar year:

Division I: Under 50,000 work hours

Division II: Between 50,001- 100,000 work hours

Division III: Between 100,001-300,000 work hours

Division IV: Between 300,001-500,000 work hours

Division V: Over 500,000 work hours

The awards, categorized by general and specialty contractor, have three levels of achievement, gold, silver and bronze. The safety evaluation is based on their injury and illness rate calculated through the Cases with Days Away from Work (CDAW) incident rate. The Gold Award is given to firms with a zero injury and illness incident rate, Silver Award for firms with a rate of 1 or less, but more than zero; and Bronze Award for firms with a rate of 2 or less, but more than 1.
